#### Local training opportunities

It is strongly recommended that services identify local training opportunities, for instance through the local authority and colleagues in external agencies. This may include:

- Advertised training opportunities
- Contacting people in specific roles, inviting them to present in team meetings or asking if they are able to run any workshops with the team.

Both have the advantage of exposing staff to the remit of other local agencies, building the service's network in the community, and offering learning opportunities based on specifically local knowledge.

Staff can update their own training records with external training or workshops; please email <u>L&D@lookahead.org.uk</u> if you need help.
